

Tourism

The municipality of Yakoruda has a relatively favorable tourist-geographical position. The amazing nature, the location and the sights make it possible to develop almost all types of tourism in the Municipality - ecotourism, rural, mountain, cultural, alternative and historical tourism, hobby tourism. Part of the municipality forms a park section "Yakoruda" from the "Rila" National Park. Yakoruda is an important starting point for excursions throughout the Rila mountain and the Rhodopes, as well as an intermediate point for transitions between Pirin and Rila. The resort area "Treshtenik", 14 km. north of the town of Yakoruda and National Sports Base "Belmeken", located 46 km. from the city of Yakoruda, are convenient starting points for numerous tourist routes. The main ones are up to x. "Potter" and h. "Zavracitsa". The accommodation base consists of hotels, chalets, villas and guest houses, which have potential for the development of balneology given the presence of mineral springs - municipal property. In the area of Treshtenik, there are tourist complex "Treshtenik", tourist hut "Treshtenik", small departmental rest centers and private villas.
